# LB 48 - Change provisions relating to sufficient cause for nonuse of a water appropriation. Stinner.

The bill proposes to change provisions relating to finding of sufficient cause for nonuse of a water appropriation.

The bill would require that sufficient cause for nonuse be deemed to exist for up to 30 years if the land subject to the appropriation is under an acreage reserve program or production quota or is otherwise withdrawn from use as required for participation in any federal, state, or natural resources district program, or such land was previously under such a program but currently is not under such a program and there have been not more than five consecutive years of nonuse on such land subsequent to when that land was last under such program.

Under current law sufficient cause for nonuse for similar programs is limited to up to 15 years.

# LB 53 - Change and provide duties for landowners or their tenants relating to removal of a blockage or obstruction in a watercourse and provide for court costs and attorney's fees. Scheer.

The bill proposes to change requirements for landowners or their tenants relating to removal of a blockage or an obstruction in a watercourse, slough, or drainage ditch or drainage course.

Current law requires landowners or tenants of such landowners to keep a watercourse, slough, drainage ditch or drainage clear. The bill would add that any blockage or obstruction caused by the landowner or tenant would require such individual to remove such so the watercourse is restored to its natural depth and width.

### LB 103 - Change provisions relating to property tax requests. Linehan.

The bill proposes that when the annual assessment of property would result in an increase in the total property taxes levied by a political subdivision as determined using the previous year's rate of levy, such political subdivision shall reduce its levy for the current tax year so that the taxes collected are equal to or less than the previous year.

If the political subdivision would need to exceed that amount, the bill would require notice of a public hearing at least thirty days prior in at least one newspaper of general circulation. The notice must be at least the size of one-eighth page of a standard size or tabloid size newspaper, and the headline no smaller than eighteen-point font. The bill would require standard form for the notice and require the following information to be included:

- The total percentage increase in assessed property valuation of the subdivision.
- The lowered tax rate needed to offset the increased valuation.
- The tax rate increase (Difference between to lowered rate and requested levy rate).
- Proposed total budget increase.
- Location of the public hearing.

After the hearing, the governing body would be required to pass a resolution or ordinance if it deems it necessary to increase the levy rate.

#### LB 128 - Provide for Wildlife Conservation Plates. Hughes.

The bill proposes to allow for the creation of a Wildlife Conservation license plate to fund the Game and Parks Commission Education Fund. There would be an additional \$40 fee for the plate with 25% going to the Department of Motor Vehicles and 75% going to the Game and Parks Commission Educational Fund.

#### LB 134 - Provide levy authority and duties for natural resources districts. Stinner.

The bill proposes to reinstate the previously expired maximum 3-cent levy authority for fully or overappropriated districts from FY 2020-21 to FY 2027-28. This would allow current successes to continue assisting Districts in complying with state law and the three-state agreement and allow for future programs to be developed to return water to the river and protect existing water supplies. The levy could only be used to implement groundwater management activities and integrated management activities under the Nebraska Ground Water Management and Protection Act.

The bill would require each district to keep separate records on the funds raised and document how such funds are expended to administer and implement ground water management activities and integrated management activities.

# LB 148 - Change requirements for public hearings on proposed budget statements and notices of meetings of public bodies. Groene.

The bill proposes to change provisions relating to budgeting of a joint entity created pursuant to the Interlocal Cooperation Act that receives funds from an occupation tax on irrigated acres.

The proposal would require that the public hearing on a proposed budget statement be held separately from any regularly scheduled meeting of the governing body and not be limited by time. The bill adds that the

governing body be required to make a detailed presentation of the proposed budget statement and make at least three copies of the proposed budget statement available to the public. Any member of the public desiring to speak on the proposed budget statement would be allowed to address the governing body and must be given a reasonable amount of time to speak.

The bill also changes the publicized notice requirements. It would require notice to be published in a newspaper of general circulation within the public body's jurisdiction and, if available, in a digital advertisement on such newspaper's web site. Each public body would be required to record the methods and dates of such notice in its minutes.

### LB 150 - Change provisions relating to access to public records and provide for fees. Brewer.

The bill proposes to change provisions relating to access to and fees for public records requests for non-residents. The bill would allow a charge to non-residents for the existing salary or pay obligation to the public officers or employees, including a charge for the services of an attorney to review the requested public records.

The bill defines resident as a person domiciled in this state and includes news media without regard to domicile.

#### LB 158 - Change provisions relating to the assessed value of real property. Brewer.

The bill would limit the growth in valuation for tax purposes to the same value as the previous year plus the cost of any improvements made to the real property during the year, minus the assessed of any improvements to the real property that have been destroyed or removed. The bill would require this valuation procedure to be in place for years 2019 through 2023.

#### LB 163 - Permit counties to conduct elections by mail. Hunt.

The bill would allow any election commissioner or county clerk to apply to the Secretary of State to use mail ballots for all elections held after approval of the application to registered voters of any or all of the precincts in the county in lieu of establishing polling places for such precincts. Current law limits mail in ballots to any county with less than ten thousand inhabitants.

## LB 177 - Change a termination date for bonding authority of natural resources districts. Lindstrom.

The bill proposes to extend the authority of the board of directors of a natural resources district encompassing a city of the metropolitan class, upon an affirmative vote of two-thirds of the members of the board of directors, to issue negotiable bonds and refunding bonds of the district, entitled flood protection and water quality enhancement bonds. The bill would extend the authority from December 31, 2019 to December 31, 2029.

### LB 204 - Require approval of voters for bonds under the Interlocal Cooperation Act. Briese.

The bill would require that bonds issued by any joint entity on or after the effective date would have to be approved by the majority of the qualified electors of each public agency which is part of the joint entity.
